

National System Review

The Canadian credit union system experienced balanced financial growth at the end of third quarter. System assets, savings/deposits and loans all recorded solid gains, however, to some extent at a slower pace than recent past. Growth rates in all three of these financial categories have returned to single digit gains. The results include only data up to the end of September 2008 just as the financial crisis was gaining real momentum, but based on these numbers the credit union system appears to be in a healthy position to weather a downturn.

Affiliated credit unions / caisses populaires across Canada reported system assets of \$110.6 billion, representing an increase of almost \$8.3 billion or 8.1 per cent over the last twelve months. This is a 46 per cent increase or \$34.7 billion gain over the last five years.

Deposits/savings growth remained strong as total deposits with credit unions increased to \$97.6 billion at third quarter 2008, up 9.5 per cent or \$8.4 billion from the previous year.

For a second straight quarter, loan portfolio growth continued to slow from the torrid pace of the last three years, but still remained solid at 7.6 per cent. Total loans were reported at \$92.7 billion. Loans as a percentage of total deposits are currently at 94.9 per cent, down from the 96.5 per cent reported twelve months ago, a reflection of stronger growth in deposits over loans this quarter. Ten years ago loans represented 89 per cent of total deposits.

Quarterly Results

Affiliated Credit Unions

Consolidation continues in the system as the numbers of credit unions declined to 444 from 472 a year earlier.

Credit Union Locations

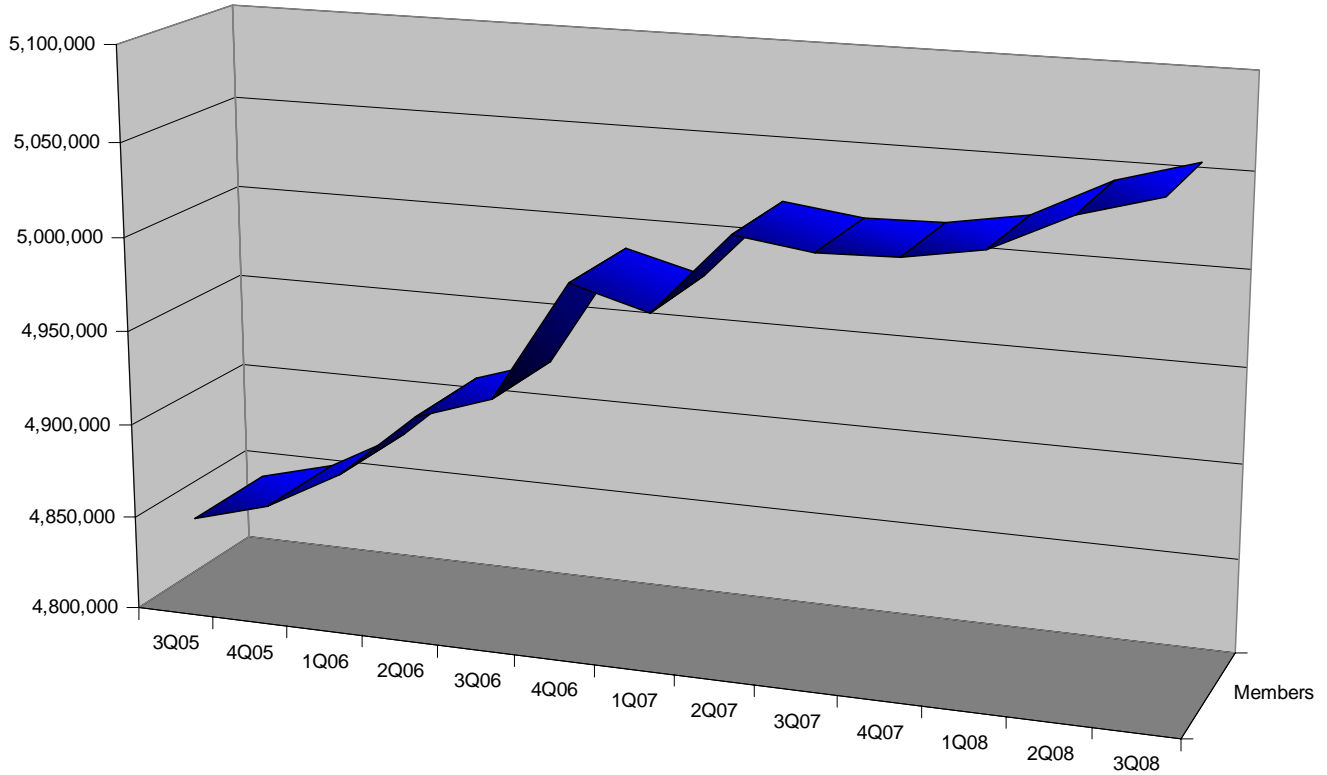

At the end of the third quarter 2008, there were 1,722 locations reported by the Canadian credit union system. While the number of locations has been historically relatively stable, a sharp decline of 48 locations has been reported since fourth quarter 2007. The majority of this decline is due to a change in the Deposit Insurance Corporation of Ontario's (DICO) reporting requirement for the Ontario system. To a lesser extent, a number of mergers in Saskatchewan earlier this year have also contributed to the decline in locations.

Provincial System Review

Significant financial gains were recorded by many regions in each of the three main financial categories – assets, savings/deposits and loans. In particular, the credit union systems in the Prairie Provinces continued to experience rapid growth as each of the three provinces reported double-digit gains over the same period last year, albeit at a somewhat slower pace than the previous quarter. The B.C. system, on the other hand, is trending below historical levels this quarter, in all likelihood because of the slow housing market in the province. B.C. credit unions experienced only modest growth this quarter in both assets and loans.

Credit union assets rose 13.6 per cent in Alberta, while the Saskatchewan and Manitoba systems reported growth rates of 13.0 per cent and 11.2 per cent, respectively. Similarly both Newfoundland credit unions and caisses in Ontario also experienced a substantial increase of 10.7 per cent and 10.2 per cent, respectively. Solid gains were posted by credit unions in New Brunswick (8.4%), Ontario (7.7%), P.E.I. (6.6%) and Nova Scotia (6.3%). The B.C. system reported a much slower gain than recent past of 4.0 per cent.

Similar results were achieved throughout the country with respect to savings and deposit growth. Savings/deposits at Alberta credit unions increased by 14.3 per cent over third quarter 2007. Comparable gains were recorded in Saskatchewan (13.8%), while credit union in Manitoba and Newfoundland reported healthy growth of 10.9 per cent and 10.2 per cent, respectively. Caisses in Ontario also experienced a similar increase of 10.4 per cent. Solid growth was posted by credit unions in Ontario (8.3 %), New Brunswick (7.7%), B.C. (6.7%), P.E.I. (6.7%) and Nova Scotia (6.2%).

Loan growth varied from region to region. Substantial growth was reported in both Manitoba and Alberta (13.8% and 13.1%, respectively), while credit unions in Saskatchewan (10.4%) and Newfoundland (10.8%) also reported sizeable increases. Credit unions in Ontario (6.9%), New Brunswick (5.7%) and Nova Scotia (5.4%), as well as caisses in Ontario (9.5%) all posted solid gains. Modest expansion was recorded by credit unions in B.C. and P.E.I. (3.8% and 2.9%, respectively).

System Results is published quarterly by Credit Union Central of Canada. For editorial or general inquiries please contact:

(1) Saskatchewan - Decline in membership is due to a number of credit unions removing "closed accounts" from their banking system.

(2) Ontario - Membership includes both non-voting and voting members. Decline in 2Q08 locations is due to change in reporting requirements. Source: DICO

(3) New Brunswick - Membership is estimated.

(4) Quarterly growth rates compare growth rates with that of previous quarter.

(5) Annual growth rates compare 3Q08 with 3Q07
